2.1 CARGO BARS AND PLANKS

2

An adjustable cargo bar for securing cargo within a cargo hold
The assembly includes a rigid beam having a rod inserted through the beam
The rod is movably adjustable respective to the beam and is provided with a surface for contacting and securing the cargo
The assembly also provides a stop to prevent the rod from moving once the surface is positioned against the cargo
The cargo bar is an easy-to-use solution to hold your truck bed cargo in place
